

SENIOR DEVELOPER

Company:	Cyepro Solutions Private Limited
Location:	Gachibowli, Hyderabad
Email:	Hr-admin@cyepro.com
Experience:	8+ Years
Job Type:	Full-time Leadership Role

ABOUT CYEPRO SOLUTIONS

Cyepro Solutions is a growing tech product company building intelligent platforms across CRM, ERP, marketplaces, and last-mile delivery. We focus on innovation, AI-driven solutions, and delivering measurable business value through cloud-native platforms that solve real-world enterprise challenges.

ABOUT THE ROLE

We are seeking an experienced Senior Developer to join our core technical team. This hands-on leadership role requires someone who has built scalable products from the ground up and thrives in startup environments. You will work on cutting-edge technology including Java, Spring Boot, MERN stack, and AI/ML to build intelligent enterprise platforms. This role demands technical excellence, ownership mindset, and ability to mentor developers while delivering quality code.

KEY RESPONSIBILITIES

- Design and develop scalable backend systems using Java and Spring Boot
- Build full-stack applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Architect and implement microservices-based cloud-native platforms
- Integrate AI/ML capabilities and Generative AI (LLMs) using prompt engineering
- Lead system architecture decisions and hands-on development across projects
- Implement CI/CD pipelines, DevOps practices, and Infrastructure as Code
- Design and optimize SQL and NoSQL databases for high-performance applications
- Build multi-tenant SaaS products with API-first architecture
- Mentor junior developers and conduct code reviews

REQUIRED TECHNICAL SKILLS

- 8+ years of hands-on software development experience in product-based companies
- Strong expertise in **Java** and **Spring Boot** framework
- Proficiency in **MERN Stack** (MongoDB, Express.js, React.js, Node.js)
- Experience with **AI/ML technologies**, Generative AI, and prompt engineering
- Deep understanding of microservices architecture and cloud-native patterns
- Experience with cloud platforms (AWS, Azure, GCP) and Docker/Kubernetes
- Proficiency in SQL (PostgreSQL, MySQL) and NoSQL (MongoDB, Redis) databases
- Knowledge of RESTful APIs, CI/CD, and DevOps practices

REQUIRED TECHNICAL SKILLS (CONTINUED)

- Strong understanding of design patterns, data structures, and algorithms
- Expertise in version control (Git) and agile development methodologies
- Knowledge of application security and data protection best practices
- Experience with message queues, caching, and distributed systems

LEADERSHIP & OWNERSHIP

- Demonstrate ownership mindset with end-to-end accountability
- Take initiative and step beyond defined responsibilities when needed
- Strong problem-solving and architectural decision-making skills
- Excellent communication skills to collaborate with cross-functional teams
- Ability to mentor and guide junior developers

QUALIFICATIONS & ATTRIBUTES

- Bachelor's/Master's degree in Computer Science, Engineering, or related field
- Minimum 8 years of professional software development experience
- Proven experience in startup or product-based companies
- Strong analytical and problem-solving capabilities
- Self-motivated with entrepreneurial mindset

WHAT WE OFFER

- Work on cutting-edge AI-driven enterprise platforms
- Leadership role with significant technical ownership
- Modern technology stacks and latest AI/ML tools
- Collaborative startup culture with innovation at core
- Competitive compensation with performance incentives
- Professional growth and career advancement opportunities

PREFERRED QUALIFICATIONS

- Experience with Angular or React Native
- Knowledge of data engineering or ML pipelines
- Familiarity with Infrastructure as Code (Terraform, CloudFormation)
- Contributions to open-source projects

HOW TO APPLY

If you're ready to take on a leadership role building innovative products, send your resume, GitHub profile, and brief cover letter to:
